PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with hands-on experience in Python, Django, PostgreSQL, and REST API development through backend development internship and software projects. Skilled in backend implementation, database schema design, debugging, testing, and application development. Experience building AI-driven applications using Python, Django, and NLP. With experience in data quality assurance, systematic validation, and process adherence.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Backend & Web: Django, HTML, CSS, Full-Stack Development, System Integration
Databases: PostgreSQL, RDBMS, Database Schema Design & Optimization
Software Practices: Unit Testing, Debugging
Tools & Platforms: Git, GitHub, Linux, AI Development Tools, Task Automation
Data & ML: NumPy, NLTK, Data Validation, Data Quality Assurance

PROFESSIONAL EXPERIENCE

Associate, ML Data Operations, Amazon *Jun 2026 – Present*

- Validate and manage large-scale datasets used in ML model training and evaluation, ensuring accuracy, consistency, and compliance with defined quality standards.
- Perform systematic testing, root-cause analysis, and quality audits to resolve data issues, improving reliability and reducing downstream errors by maintaining 99%+ accuracy.
- Reviewed and analyzed image and video data according to defined guidelines, identifying quality issues and ensuring accurate labeling for machine learning workflows.
- Collaborate with cross-functional teams to complete high-volume workflows accurately and on schedule while following established quality processes.

Python Developer Intern, Shalom InfoTech Private Limited *Aug 2025 – Oct 2025*

- Designed and developed backend components and REST APIs using Python, Django, JavaScript, and PostgreSQL, translating functional and technical requirements into working code.
- Performed testing, debugging, and issue resolution to identify application problems and improve software quality and reliability.
- Developed and maintained application functionality while documenting test cases, issues, and results to support reliable software development.
- Collaborated on application development tasks and resolved technical issues to ensure functionality met project requirements.

PROJECTS

AIWorkSync — Career Growth Platform | Python, Django, PostgreSQL *Nov – Dec 2025*

- Built an AI-driven backend platform with NLP-based skill-matching (NLTK) to recommend courses and job roles from user profiles.
- Designed relational database schemas and optimized queries in PostgreSQL to support complex analytics at scale.
- Implemented an AI mentor module for competency-gap analysis and milestone-based progress tracking to support personalized career development.

AI-Powered Virtual Productivity Assistant | Python, Django, PostgreSQL *Feb – Mar 2025*

- Designed and built a full-stack backend service with REST APIs for user authentication, task CRUD operations, and scheduled notifications, backed by a normalized PostgreSQL schema.
- Implemented a real-time dashboard and automated notification system, improving reliability of task delivery.
- Performed testing and debugging to identify and resolve application issues, improving software quality and reliability.

EDUCATION

Bachelor of Technology in Information Technology, Anna University *2024 – 2028*
(Rathinam Technical Campus), Coimbatore
CGPA: 8.0 / 10

CERTIFICATIONS

Java Programming (Great Learning) • Python Programming (GUVI) • SQL & RDBMS (IBM) • AI in Software Development (Infosys) • NumPy for Data Science (Infosys)
